

Harlequin stacking chair

The Harlequin is a good multi purpose events chair. Whilst using the same high quality fabric, the Harlequin frame stands out with its modern hammertone finish, which is unique in our range. For little more than our Minstrel chair, the Harlequin offers a more contemporary design and more generous proportions for a minimum premium.

- Contract quality construction & design
- 18 gauge steel frame
- Support brace on legs & under seat for extra strength
- Durable silver hammertone finish
- Plastic feet and guards to prevent stacking and floor scratching
- Stacks 10 high for easy storage
- 2.5" high density foam seat & durable fabric, fire rated BS5852
- Built-in hand hold for easy mobility
- No visible fasteners on back of seat
- No assembly required

All our products are contract quality and are designed for comfort, style and years of commercial use.
